

# 2024 International Workshop on wireless Sensing technologies and Applications (IWSA 2024)

## IWSA 2024

November 19 - 20, 2024

Regency Art Hotel

Macao, China

<http://2024.iwsa.apmtt.org>

## CALL FOR PAPERS

### About IWSA 2024

**2024 International Workshop on Wireless Sensing Technologies and Applications (IWSA 2024)** is a convergence of academia and industry in forms of innovation on wireless sensing from RF and photonic technologies. This workshop contains three events namely Keynotes Speeches, Regular Papers, and Exhibition.

**We invite you** to participate in the IWSA 2024, an event dedicated to advancing research and innovation in the fields of RF/microwave/millimeter/ photonic sensing technologies. The workshop will provide a unique platform for researchers, practitioners, and industry professionals to share their latest findings, exchange ideas, and explore collaborations in this evolving domain.

### Submission Guidelines

- The paper should consist of original work, including specific results.
- All Papers must be in A4 size in English and two pages in length, including all texts, references, and figures.
- All Papers should conform the standard format, and detailed format template is available at the website.
- Paper submission is available at the website.

### Topics of Interests include, but not limited to

- RF/Microwave/millimeter and Photonic Sensing and Imaging
- Sensing for Industrial Applications
- Remote Sensing and Radar Systems
- Sensing for Internet of Things (IoT)
- Wireless Communication and Sensing
- Microwave/Millimeter-wave Antennas
- Passive/Active Circuits and Systems
- Integrated Microwave-Photonics Devices
- Others

### Important Dates

- Paper Submission Deadline: **July 30, 2024**
- Notification of Acceptance: **August 30, 2024**
- Final Paper Submission date: **September 30, 2024**

- ◆ Both **Best Paper Awards** and **Student Paper Awards** will be solicited.
- ◆ For any inquiries or further information, please contact the organizing committee.
